

Guidelines for Groups

For the safety of your children and our animals – please discuss the following with your group (including the supervising adults) before your visit to Lafon Acres:

- Just walk, Running can disturb nesting and animals at rest, and it can cause personal injury.
- Water troughs, Please ensure your students/children are made aware of water hazards throughout the property.
- Keep voices at usual talking level, Unexpected loud noise can frighten the animals.
- Please, a ratio of 1 adult to 4 children. These groups must stay together so everyone is safe and looked after (including our animals).
- Please ask before feeding animals any food brought from home.
- Be kind and respectful. Behaviour like throwing things at animals is unkind plus it could be dangerous if the animal gets upset, angry or scared. Staff may ask people to leave Lafon Acres if they see this behaviour.
- Use the bins. Litter can be dangerous to the animals if they think it is food. Please ask your children/peers to respect their environment and use the bins provided.
- Read signs. We use signs to keep visitors and animals safe. Read and obey all signage.

We look forward to sharing our animals with you
